FIRE & SECURITY SPECIALISTS

Weekly FIRE ALARM TIPS

TEST MODE

Make sure your fire alarm system is in TEST mode. Especially if you have a monitored system.

TEST DIFFERENT ZONES

Test different zones every week. This way you can check for faults per zone.

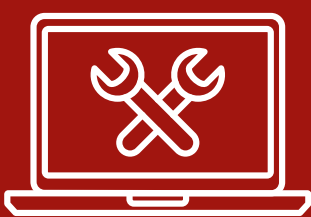

ELECTRONIC LOG

Keep an electronic log of all weekly tests, zones tested and faults (if any).

TIME IT CORRECTLY

Do all weekly tests during working hours. Preferably the same time on the same day every week.

REPORT ALL FAULTS

Report any issues to your maintenance team asap. Also, log these at the time.

CROSS TRAIN STAFF

Show numerous staff the weekly fire drills. Making sure you have contingency over holidays for the weekly tests.
